

SC200 Universal Controller

The SC200 is the most versatile controller on the market. This Universal Controller works with up to 30 digital or analog sensors for up to 17 different parameters.

It allows the use of digital and analog sensors, either alone or in combination, to provide compatibility with the broadest range of sensors. Password-protected SD card reader offers a simple solution for data download and transfer.

It replaces the Hach SC100 digital and GLI53 analog controllers with advanced features for easier operator use.

Key Benefits:

Maximum Versatility

- Broad range of sensors eliminates the need for dedicated, parameter-specific controllers.

Ease of Use and Confidence in Results

- Large, high resolution, transreflective display provides optimal viewing solution in any light condition.
- Guided calibration procedures in 19 languages minimize complexity and reduce operator error.
- Visual warning system provides critical alerts.

Wide Variety of Communication Options

- Utilize two to five analog outputs to transmit primary and secondary values for each sensor, or integrate Hach sensors and analyzers into Modbus RS232/RS485 or Profibus DPV1, and HART networks.

Part Number	Sensor Input #2	Sensor Input #1	Digital / Analog	Communication Capabilities	Power Options	Web Price
LXV404.99.00502	None	Digital	Digital	2x 4-20mA Out	100 - 240 VAC, no power cord	Rs.290,357.00
LXV404.99.00202	None	Analog Conductivity	Analog	2x 4-20mA Out	100 - 240 VAC, no power cord	Rs.230,514.00
LXV404.99.05502	None	Digital	Digital	HART	100 - 240 VAC, no power cord	Rs.372,242.00
LXV404.99.05552	Digital	Digital	Digital	HART	100 - 240 VAC, no power cord	Rs.214,343.00
